"I love the fact that they are prompt with the loans and the interest rates are better than my credit cards. LOL. Thanks, guys. I will pass the word about you."  
— Larry H. on 6/20/2023

"The loan process was very efficient and stress free. This is the second loan I have done through Prosper and I will continue to recommend to others."  
— Lori D. on 6/29/2023

<sup>1</sup>For example, a three-year \$10,000 personal loan would have an interest rate of 9.88% and a 6.90% origination fee for an annual percentage rate (APR) of 14.93% APR. You would receive \$9,301 and make 36 scheduled monthly payments of \$322.11. A five-year \$10,000 personal loan would have an interest rate of 11.64% and a 7.99% origination fee with a 15.36% APR. You would receive \$9,201 and make 60 scheduled monthly payments of \$220.63. Origination fees vary between 1% and 7.99%. Personal loan APRs through Prosper range from 8.99% to 35.99%, with the lowest rates for the most creditworthy borrowers. Eligibility for personal loans up to \$50,000 depends on the information provided by the applicant in the application form. Eligibility for personal loans is not guaranteed, and requires that a sufficient number of investors commit funds to your account and that you meet credit and other conditions. Refer to Borrower Registration Agreement for details and all terms and conditions. All personal loans made by WebBank.

<sup>2</sup>Your monthly payment amount may be different in the final month of your loan.

<sup>3</sup>You may receive your funds one business day following your acceptance of the loan offer, completion of all necessary verification steps and final approval. One business day funding is also dependent on your bank's ability to quickly process the transaction.
